Contemporary Design

The contemporary design expression will directly engage the public through the play of light, colour, and art. A masonry base extends the full length of the development on both the east and north commercial elevations.

Building for Life

Starting out as a construction company has made us a better developer. For more than 38 years, we've developed a wide variety of commercial and residential projects across Metro Vancouver and know what it takes to build beautiful and functional spaces for everyday life.

Buildings shape neighbourhoods and change lives in infinite ways. That's why we pay attention to every detail, no matter how small. We walk through every floor plan of every building to ensure our communities don't just look good on paper, they're spaces that enhance lives. After construction is complete, each building must stand the test of time.
